

## Hope Engsberg, MD

Hope Engsberg, MD grew up in the Ozark Mountains of Missouri and her interest in a medical career started early. She worked in a small, rural hospital and there she discovered that anesthesia truly blended the science and art of medicine. These early years helped to form a career centered upon compassion, commitment, care, and competence.

She was graduated from the University of Missouri – Kansas City School of Medicine and continued on at the Baylor School of Medicine with her Anesthesiology Residency and Cardiac Anesthesiology Fellowship and

Advanced Anesthesia Clinical Care. After she completed her time at Baylor, Hope Engsberg, MD joined the United States Army and earned the rank of Major. During this time, she was the Chief of Anesthesia for the 67th Evac Hospital in Wurzburg Germany. She concluded her service obligation at Fitzsimmons Army Medical Center and continued her career in Denver as President of Mountain Anesthesia Concepts in Morrison, CO.

So after 30 years of working in the world of anesthesiology, Hope Engsberg, MD is now completing a fellowship training program in preventive medicine through the American Academy of Anti Aging and Regenerative Medicine. Hope Engsberg, MD is also enrolled in the University of South Florida School of Medicine's master's degree program in Regenerative Medicine and Nutrition.

Essentially, her plan is to extend the safe, critical care environment provided by her anesthesiology career into the outpatient preventive medicine world of anti aging and regenerative medicine. Simply, Hope Engsberg, MD believes that each individual should have a choice how he/she ages and each person also deserves a healthcare experience surrounded by compassion, care, and competence.

Hope Engsberg, MD has a son, Christopher, who lives in Crested Butte and is enjoying the Colorado lifestyle to its fullest. She and her spouse, Kathy Vieth and their terrific Great Dane, Wilhm Dakota, all work together to provide you with the best care at AgeWellMD.
